

Experience of the second secon

by R-Test

 $\lim_{k\to\infty} \frac{(k+1)!}{(2k+1)!} \cdot \frac{(2k)!}{(k!)^2}$ 

=  $\lim_{k\to\infty} \frac{(k+1)k!}{(2k+1)(2k)!} \frac{(2k)!}{k!}$ 

=  $\lim_{K \to \infty} \frac{(k+1)(k+1)}{2(k+1) \cdot 2(k+1)} = \frac{1}{4}$ 

 $\Rightarrow \frac{2}{2} \frac{(k!)^2}{(2k)!} \text{ is } CnV.$
